STRONG | SAFE | SUSTAINABLE

Designed to fill on manual, semi-automatic and automatic filling equipment.

SAFE:

- Puncture resistant wall
- PRT (Pressure Relief Tool) supplied with every keg

READY-TO-USE KEGS:

- Pre-purged with N2.
- Available fitting types (A, G, S, D)
- Keg line compatible with low or no investment needed

OR PREFORM KITS AVAILABLE

FAST FILLING:

- Upright or inverted filling
- With inside spear for optimal dispense
- Reduced foaming

ECO-FRIENDLY DESIGN:

- Kegs easy to disassemble for recycling
- Reusable chimes made of recycled PP material
- Keg made of up to 60% recycled material

ERGONOMICS AND HANDLING:

- Easy to lift and stack
- Optimal palletization of filled kegs
- Patented chime: unique base grip design

PRODUCT INTEGRITY:

- UV and Light Protection (no bag needed)
- O2 and CO2 Barrier Technology

SAFETY INSTRUCTIONS:

- Instruction Label with QR code on every keg
- Extra online resources and support tools

35 YEARS OF TECHNICAL EXPERTISE

UK Innovation Centre
Global Operations in:
Canada, US, Brazil, Sweden,
Czech Rep., Russia, China, Australia

A GLOBAL BUSINESS WITH A LOCAL SUPPORT

WHY WORK WITH US

Petainer helps you access
low rotation or new export markets,
manage seasonal peaks, and
increases your flexibility

Zero maintenance or cleaning
(no water, no chemicals)

No Capex,
reducing price pack per L

We provide preform kits for local manufacture
or ready-to-use kegs

UP TO **40%** SAVINGS
ON LOGISTICS

SITES POWERED BY CLEAN ENERGY

Lidköping and Aš using
100% clean energy

Petainer has achieved a
CSR Gold Rating by EcoVadis

This places Petainer in the Top 1% of all
Plastics Manufacturers evaluated by EcoVadis

RECYCLING AND DISPENSING

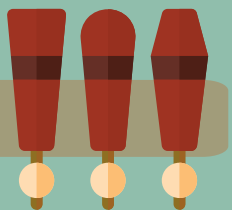

Easy to disassemble after use
Recyclable kegs and chimes
Reusable chimes
No keg losses!

AFTER 12 MONTHS

NO DIFFERENCE IN TASTE PROFILES BETWEEN PETAINER KEGS, STEEL KEGS & GLASS BOTTLES.

Test conducted by an independent expert panel.

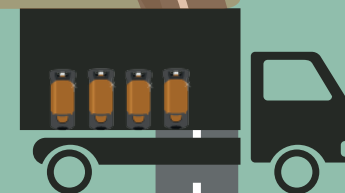

ON TRADE

Compatible with traditional dispense equipment
Reconnectable after cleaning lines
Stackable and easy to store

OUR KEGS WEIGH **10%**
THE WEIGHT OF STEEL KEGS

TRANSPORT

Lower transportation costs
Reduced carbon footprint
Petainer kegs being
lighter than metal kegs,
more kegs can be fitted
onto outbound vehicles

SUPERIOR PRODUCT PROTECTION

O2/CO2 Barrier Technology
UV and Light protection
Puncture Resistant wall
Product integrity at higher
temperatures
